JOHNSON INSISTS
TREATY OF PEACE
IS THE BIG ISSUEFight Over Treaty and League
Carried From Senate Direct
To The People He SaysThinks The Republican Platform
Only Safe-Guard For Americans.Does Not Wish America Mixed
Up in Foreign Affairs By
League.

(By Associated Press)

San Francisco, July 7.—“Support of the Republican party with a candidate standing four square upon the platform,” is the only choice left “those who believe in safeguarding, protecting and preserving our Americanism, Senator Hiram W. Johnson of California declared in a statement at his home here today.

“For more than a year the contest over the President's league of nations has been waged in Congress,” Senator Johnson's statement said. “Republican and Democratic platforms in direct opposition to each other clearly present the question for decision in the November election.

“The Republican party declared the President's covenant ‘failed’ finally to accomplish its purpose and contains stipulations not only intolerable for an independent people but certain to produce the injustice, hostility and controversy among nations which it purports to prevent.

“The Republican party stands, therefore, firmly against the President's covenant and denounces it as pleading for, rather than promoting peace.

“The Democratic party, on the other hand, rejected every effort to modify or qualify the President's proposed league, endorsed the President's attitude and took its position in favor of the league as presented.

“Thus the issue finally comes from the forum of Congress to the final arbitrament of the American people. The overshadowing question in the campaign, therefore, is whether we enter the maelstrom of European and Asiatic politics and become a part of the cynical imperialism of the old world, or whether America shall live her life in her own way, independent, unfettered, mindful always of her obligations to humanity and civilization, but free to act as each crisis shall arise.”

Cox.Weary Delegates Not Too Weary
To Burst Into Uproar

(By Associated Press.)

San Francisco, July 7.—Delegates to the Democratic National Convention, their work done and the big gathering adjourned in a last roar of enthusiasm for the party standard bearers, Governor James M. Cox of Ohio and Franklin D. Roosevelt of New York, were scrambling today for train accommodations homeward.

Mr. Roosevelt was due to leave during the day for Dayton, Ohio, to consult with Governor Cox, where preliminary plans for the campaign will be mapped out subject to amendment later when the party machinery is organized and the advisors selected. The assistant secretary intends to resign from the navy department as soon as possible.

It was generally agreed that the convention had been a great success. If noise and unflagging display of enthusiasm were a gauge of that success, there was good ground for the view.

Up to the last, the delegates were ready to cheer or to demonstrate at every opportunity.

COX PLEASED

Comment.Warns Against The Attempt To
Exploit Class Hatred

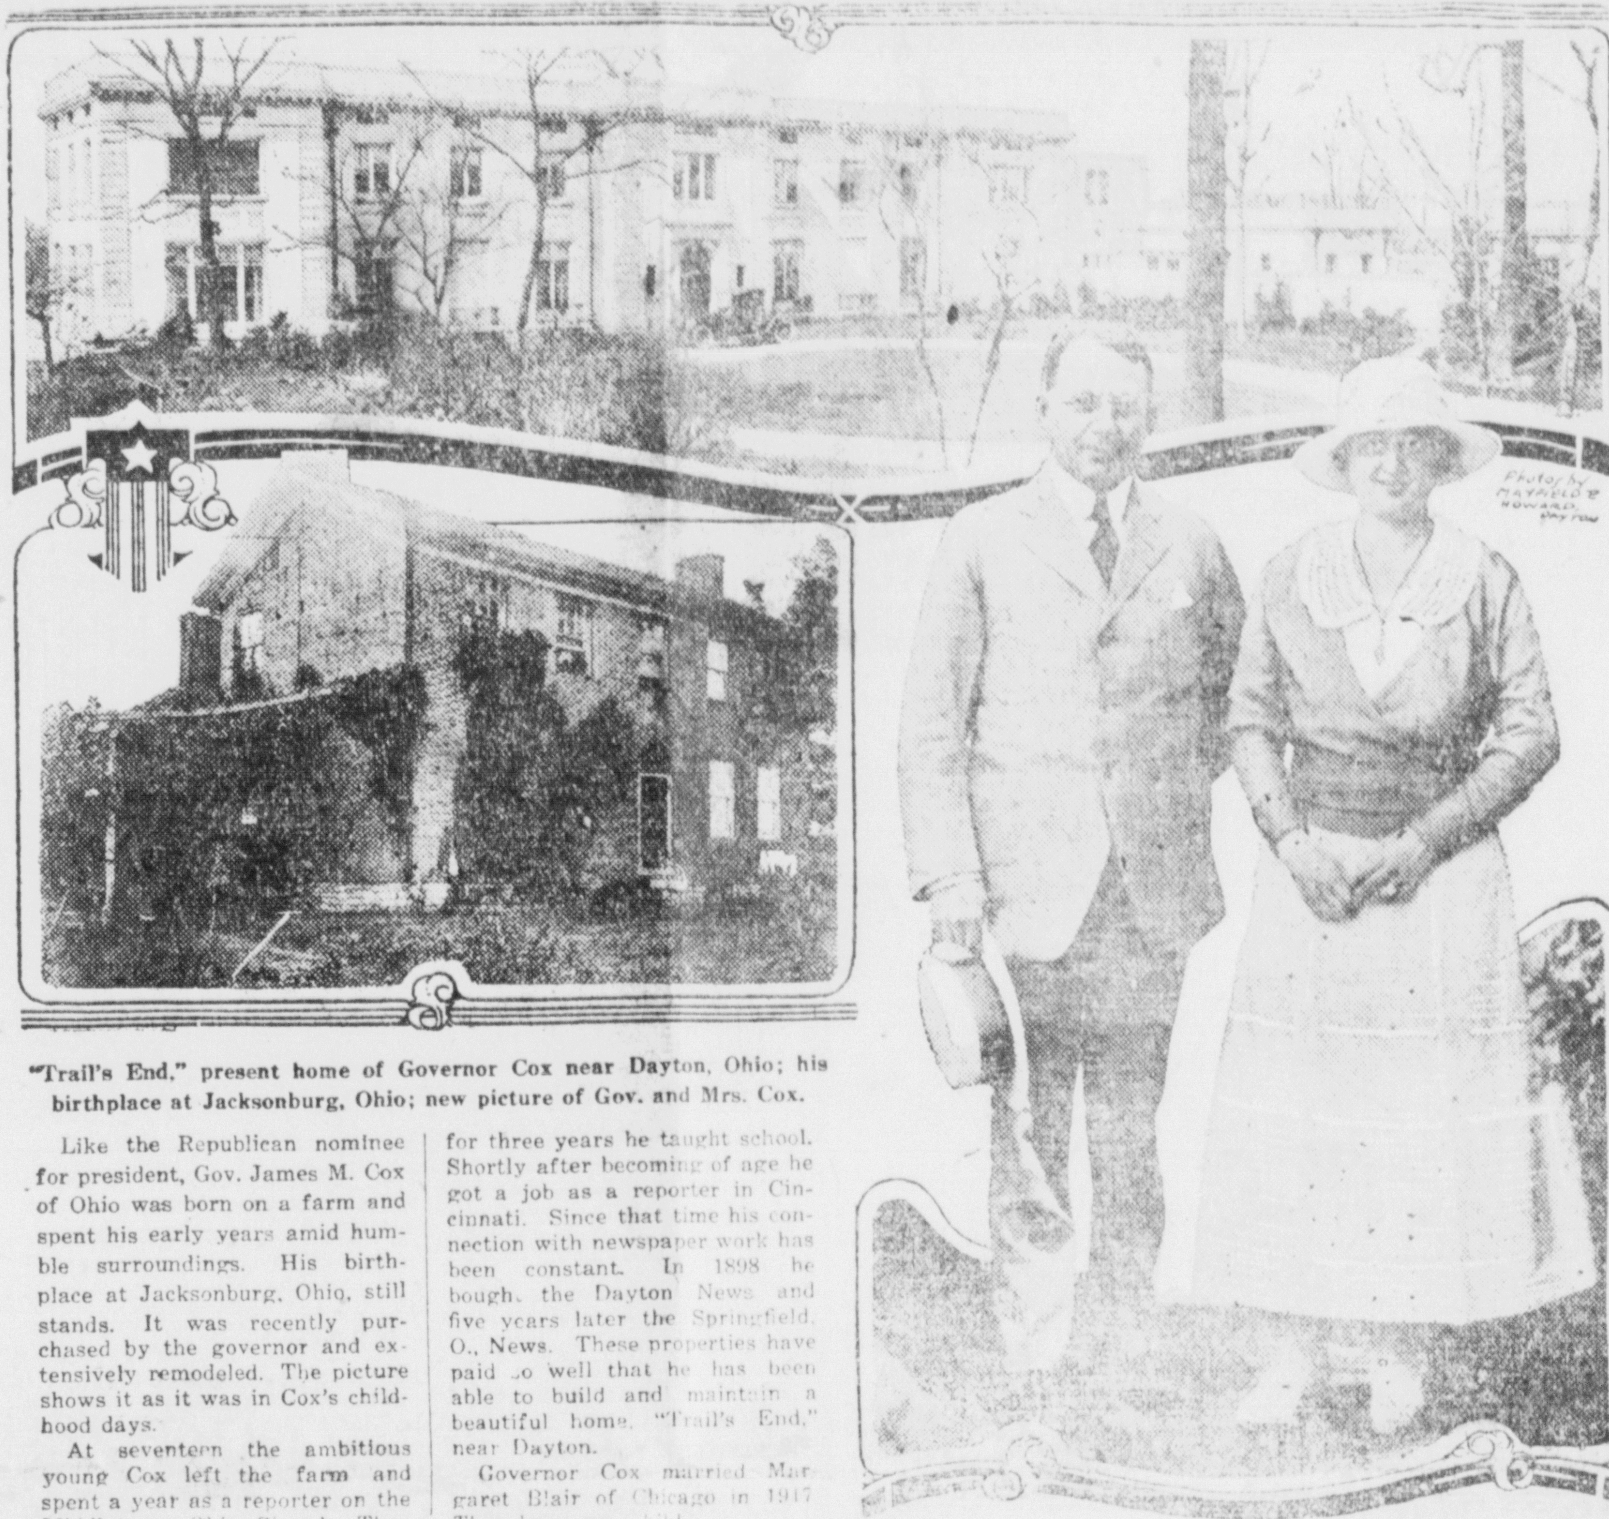

(By Associated Press)

Dayton, O., July 7.—Governor James M. Cox, the Democratic candidate for president, believes his running mate, Franklin D. Roosevelt, assistant secretary of the navy, will be a good running mate.

“Cox and Roosevelt—that's catchy isn't it?” commented the Governor as he first learned who his associate on the ticket would be from the Associated Press at his home at Trail's End.

In his first public address after his nomination in Middletown last night, Governor Cox declared, in commenting upon the industrial unrest, that “any attempt to exploit class hatred is equally as dangerous as the Bolshevikism in Europe.”

GOV. COX, HIS WIFE, BIRTHPLACE AND PRESENT HOME

“Trail's End,” present home of Governor Cox near Dayton, Ohio; his birthplace at Jacksonburg, Ohio; new picture of Gov. and Mrs. Cox.

Like the Republican nominee for president, Gov. James M. Cox of Ohio was born on a farm and spent his early years amid humble surroundings. His birthplace at Jacksonburg, Ohio, still stands. It was recently purchased by the governor and extensively remodeled. The picture shows it as it was in Cox's childhood days.

At seventeen the ambitious young Cox left the farm and spent a year as a reporter on the Middletown, Ohio, Signal. Then

for three years he taught school. Shortly after becoming of age he got a job as a reporter in Cincinnati. Since that time his connection with newspaper work has been constant. In 1898 he bought the Dayton News and five years later the Springfield, O., News. These properties have paid so well that he has been able to build and maintain a beautiful home, “Trail's End,” near Dayton.

Governor Cox married Margaret Blair of Chicago in 1917. They have one child.

(By Associated Press)

Washington, July 7.—Proceedings asking that Bainbridge Colby, Secretary of State, be enjoined from issuing any proclamation declaring the suffrage amendment ratified were instituted in the District of Columbia supreme court today by Chas. S. Fairchild, of New York, president of the American Constitutional League.

Mr. Fairchild also speaks to prevent Attorney General Palmer from enforcing the amendment. Justice Bailey issued a ruling on Secretary Colby and the attorney general to show cause July 13th why the motion should not be granted.

The basis of the proceedings is the claim that the ratification of the amendment by the West Virginia legislature was illegal because accomplished by fraud and that the proposed ratification by the Tennessee legislature also would be illegal on the grounds that the legislature lacked authority under the state constitution to act on the measure.

Only 35 states have ratified the amendment and as ratification by one other is necessary the attack on the amendment at this time came as a surprise.

Raleigh, N. C., July 7.—Governor Bickett, of North Carolina today issued a call for a special session of the legislature for August 10th at which ratification of the suffrage amendment will be considered.

Both national and state democratic party leaders are expected to bring great pressure to bear on the legislature to ratify the amendment and a bitter fight is looked for.

(By Associated Press)

Chicago, July 7.—William Armstrong, Chicago lawyer, presented to the Senate committee investigating campaign expenditures today a mass of documentary evidence which he said would “prove that Attorney General Palmer had abused the power of his office in order to influence delegates to the democratic national convention.”

Mr. Armstrong told the Committee that documents would show Mr. Palmer had advocated pardons for criminals and prevented the gathering of evidence in cases where there were charges of defrauding the Government. Senator Kenyon said the committee would decide later whether Armstrong should be called as a witness.

Journalists.

(By Associated Press)

Dayton, O., July 7.—Governor Cox, the Democratic candidate for president, was busy today at his newspaper office trying to read a portion of the thousands of congratulatory telegrams which have been pouring in since his nomination.

One of the most highly prized came from Col. Henry Watterson. The Governor said he was particularly pleased over it because Col. Watterson represented to him the ideal journalist.

Col. Watterson's telegram said: “Your nomination revitalizes democracy. It will stir the democratic heart of the nation with a reflection of a triumphant past and the forecast of a radiant future. To the bosom of one old Kentuckian it brings a flood of fighting memories along with the assurance of a glorious victory.”

Finally Accepts Assistant
Secretary of the Navy as
Running Mate to Gov. Cox.

(By Associated Press)

San Francisco, July 6.—Franklin D. Roosevelt, of New York, Assistant Secretary of the Navy, was nominated for vice president today by the Democratic national convention and became the running mate of Governor Cox, Democratic choice for the presidential nomination.

The first cries of “Cox and Roosevelt” ran through the convention hall and were mixed with the shouts of the vote of acclamation by which he was nominated without a ballot.

Despite disinclination of the Tammany organization to accept him Roosevelt's name went over with a band wagon movement during which all other candidates were withdrawn.

CANDIDATES WITHDRAW

James Hamilton Lewis, of Illinois, was withdrawn early by former Governor Dunne; Governor Stewart, of Montana, announced his own withdrawal; Edward L. Dohney, of California, and former Governor Hawley of Idaho were withdrawn and Major General L. D. Tyson, of Tennessee in person announced he would not be a contender, as did David R. Francis of Missouri.

Bainbridge Colby, Secretary of State, who was considered as a candidate and refused to allow his name to be used, finally was urged to consent if he should be “drafted.” As it fell out, the Tammany crowd decided to accept Roosevelt, and Colby's name was not considered further.

Nomination of W. T. Vaughn, of Oregon, who had received state primary endorsement was changed into a second for the successful nominee.

ROOSEVELT NOMINATED

Mr. Roosevelt was placed in nomination by Timothy L. Ansberry, a former representative from Ohio, who sat as a Cox delegate in the District of Columbia delegation. Seconds sprang from all parts of the convention hall. The seconding of his nomination by Governor Smith of New York from the Tammany delegation clinched it.

Senator Robinson of Arkansas, permanent chairman of the convention, was appointed chairman of the committee to notify Governor Cox of his nomination, and Chairman Homer S. Cummings of the Democratic National Committee was appointed chairman of the committee to notify Mr. Roosevelt.

During the closing moments of the convention the usual formal resolutions were adopted.

Hope It's Only Rumor

From the national capital it is reported that rumor is current and is being given credence by a number of people, that when the campaign is well under way President Wilson will call Congress together in extra session and will again submit, for ratification, the peace treaty.

According to the same rumor the reason which would actuate the President in taking such a course is purely political. The idea being that the republican Senate would then be compelled to refuse ratification, in which case the democratic spell-binders would be busy traveling up and down the land blaming all our ills, real and imaginary, on the republican "obstructionists" or the republican Senate would be compelled to ratify the treaty in order to escape censure for holding it up. In which event the democratic orators would claim vindication. In either event the democrats would win and the republicans lose.

That all sounds very plausible from a political standpoint. It might work out if tested and yet some programs that have looked to be more certain, as result producers, have gone wrong.

But promising as it looks politically, we cannot believe that President Wilson would consent to any such a transparent trick.

To convene Congress in extra session for the purpose of tricking it into a position to its disadvantage politically would be such a breach of faith that it would fool no one.

The people would be quick to realize the purpose of and to resent any such action. President Wilson would not consider such a course seriously and, we feel confident, that those who believe him capable of even thinking of such a thing, are doing him a grievous injustice.

No—that's just a rumor. Reads well when repeated in print, but it's pure fiction.

The Coal Famine

This great nation of people right now, with an inexhaustible supply of coal in the mines and the miners begging for more work, is face to face with a coal famine which promises to surpass, in disastrous results, any of its predecessors.

There is no good reason why coal should be practically unobtainable and no reason why the unconscionable price demanded should be submitted to any longer without an effort to change conditions.

There is as much need for the government to seize and operate the coal mines now for the benefit of the people as there was to seize and operate the railroads in war time.

Though different, of course, the necessity is just as vital now as it was then.

The coal supply seems to have fallen into the hands of conscienceless speculators and profiteers who are leagued together to plunder and freeze the people. The alleged shortage of cars is a mere shadowy excuse. It is entitled to no consideration. The coal supply is cornered and the extortionate prices fixed before there is any need for cars.

Mine owners and operators have sold all their output at the mine. Speaking generally the mine operators are proceeding as usual, the miners are suffering from the usual shortage of work and receiving the same beggarly wages. Retail dealers are helpless and must pay what the speculators demand and take, in quantity and quality, what they give. Farmers are halted in threshing season, factory wheels are stopped and homes menaced by men, who neither mine nor sell coal, save to dealers.

Our experience with government operation of utilities has not been encouraging but something must be done, even if it necessitates an extra session of Congress to break the hold of the "go between" coal brokers who have taken things into their own hands.

Just how long the people will submit to this villainous rule of the coal barons is doubtful, but it does seem that we are approaching the limit of human endurance. It seems too that a government able to reach out its strong arm and seize the leaders of the miners, striking for more work, should be able to take the speculators by the neck and choke them until their hold is broken.

POETRY FOR TODAY

IN JULY

The mothering and twilight gentle wood
Often held out enfolding arms to me.
I felt as cherished as her dogwood tree,
Her shy swamp-orchid in canary hood
I have known dawns of ecstasy on hills,
Drowsy July beside the valley streams
Led in the pageant of a month of dreams,
Languid with sweetness brooding sun distills.

Often, warm noons, in goldenrod I've stood
And watched the slow creek putting out to sea,
Freighted with seed and petal. Now it seems
I may for those days pay the Past his bills.

Down from the heights by wind and bird are borne
Seeds of the Alpine flowers of the snow
Into warm valleys where they cannot grow,
Being children of the peaks of morn.
We did not try to plant the edelweiss
In window boxes on a breathless street.
Brief was the miracle—brief and complete,
And of the sort men are not granted twice.

I know no hope more utterly forlorn
Than theirs who clip Love's wings to make them grow.
They strew the pathway for their own defeat,
Wearing too commonly his high device.

H. M. DAUGHERTY SAYS HARDING ELECTION SURE

Here Visiting Mother, Hon. H. M. Daugherty Gives Statement to Press.

Cox's Choice Due To Geographical Consideration, Says Harding Manager.

Here to visit his mother, Mrs. Jane Daugherty, on the event of her birthday anniversary, Hon. H. M. Daugherty, pre-convention manager of Senator Warren G. Harding, Tuesday afternoon issued a statement regarding the selection of Gov. James M. Cox by the Democrats as Harding's opponent in the presidential race, branding the selection due largely to the geographical location of the Ohio governor, and predicting success for Harding.

After leaving here Mr. Daugherty went to Chicago to attend the general conference of Republican leaders now under way in that city.

Mr. Daugherty's statement says:

"The nomination of Governor Cox was solely the result of Geographical consideration in view of Senator Harding's nomination.

"The platform is in a sense a partial repudiation of President Wilson, and Governor Cox's nomination will not please him and administration adherents.

CLOUD-BURST SENDS CREEKS OUT OF BANKS

The extreme northern part of Fayette and lower part of Madison county was swept by one of the worst rainstorms ever experienced, late Tuesday evening, and in some places the rainfall reached cloudburst proportions with the result that streams were sent out of bank and over the highways and fields were converted into lakes with water standing more than two feet deep over many acres of ground in some of the fields.

Coming before and after the deluge other rains added to the enormous rainfall with the result that from Tuesday noon until Wednesday morning the estimated rainfall in the neighborhood reached five inches, establishing a new record.

The northern reaches of Paint, Rattlesnake and Sugar creeks were flooded and reached marks that had not been approached in many years.

DEATH AGAIN VISITS THE MELVIN HOME

Mrs. Nancy Melvin, widow of J. A. Melvin, quietly answered the eternal summons Tuesday afternoon at 5:45 at her home on East Paint street, after an extended illness, aged 67 years.

Mrs. Melvin's death, following so closely upon that of her husband, leaves the home doubly desolate and brings sorrow to a large circle of relatives and friends besides those of her immediate family. Two sons, George and Charles, and one daughter, Marie, who have the deepest sympathy of the community.

Mrs. Melvin was the daughter of Abraham McCoy, one of the pioneer settlers of the county, and one of the large farmers of his day. Her grandfather, James McCoy, moved to this county from Pennsylvania in 1812, living to the great age of 106 years.

Of a large family, four brothers and two sisters survive: Elias A. James, M. Mart L., and F. M. McCoy, Mrs. Mary Burnett, Cummings, N. Da., and Mrs. Allie James, of New York, who has been with her sister for some time.

Always a most unselfish daughter, Mrs. Melvin was an equally unselfish wife and devoted mother and ties severed in the home were closely knit. She was also a valued neighbor and friend, a faithful member of Grace M. E. church and a deeply interested member of the W. R. C.

Funeral services will be held at the home at 3:00 p. m. Thursday. Burial will be made by the side of Mr. Melvin in the family lot in the Washington cemetery.

NO FOUR BASE HITS AT PARK THIS YEAR

Although the baseball season is far advanced in this city there has not been a single home run hit at the Sunnyside Baseball Park. Not one of the Athletics heavy hitters have succeeded in lifting the ball over the fence in fair territory and visiting players have not even put over a foul blow.

The claim of some fans that the reason for so many four base swats in the big league this year is that the balls are livelier but this has not been verified in local baseball.

Carl Noon has come as near as any batsman to performing the trick but the ball has both times fallen into the center fielder's hands while the gardener was backed against the wall.

Harley Adams put one over the right field fence but it was foul by inches and Chief McCall looped the ball on the opposite side but his was also foul.

PRINCE ALBERT GENUINE WORKER

London, (By Mail)—Prince Albert who has become Duke of York, Baron Killarney, and Earl of Inverness, as the second son of the king, who possessed the titles as King Edward's second son, is known as "The Industrial Prince" because of his keen interest in economic questions, his belief that he is no member of "the idle rich but a genuine worker" and the popularity he has won with wage earners with whom he frequently and comfortably converses.

The prince is described as "a typical, amiable likeable, practical Englishman, who has no brilliancy but knows the job of being prince is no sinecure." His passion is for lawn tennis and squash rackets, and his chief indoor amusement is dancing. Recently he was created a wing-commander in the Royal Air force, in which he won his wings as a pilot.

Prince Albert makes no pretense to oratory "but always says something to the point—and his speeches are not written for him."

San Francisco, July 6.—"My heart is in the grave with our cause and I must pause until it come back to me," said William J. Bryan today in giving his reason for not making any extended statement on the work of the Democratic National convention. "My views on the convention's action in reference to the endorsement of prohibition are known," said Mr. Bryan. "I regard it as a very serious mistake—it opened the door to the nomination of a wet candidate."

LOCAL BOYS GOING TO WESTERN HARVEST

Floyd Overly and Robert Shoop, two well known local young men left Tuesday afternoon for Kansas City, Kan., where they expect to locate for the summer while working in the great Kansas harvest.

The number of young men who have gone from this city to find adventure in the wheat fields of the west has been raised to three Noah Kler having left for the same state two weeks ago.

It is understood that the harvest will be heavy and that attractive wages are drawing men from all over the country. Kler expects to start in Kansas and follow the harvest through into Canada where it is several weeks later than in the states of the middle-west.

Considering expenses, however, it is believed more money is available in the harvest fields of Fayette county at the present time.

FALLS TO DEATH IN INDIANAPOLIS

George M. Hershey, aged 36 years, son of W. S. Hershey, former resident of Jasper township, this county, who for the past four years has been a resident of Indianapolis, Indiana, accidentally fell from the fifth story window of a building in Indianapolis, a few days ago, and was instantly killed. The accident occurred at the National Bank Building in Indianapolis.

The father was visiting his daughter, Mrs. A. W. Arehart, in Jasper township, at the time of the accident, and the body was shipped to the Arehart home where funeral services were held and burial made in the Mill-edgeville cemetery Monday afternoon.

Besides the father and sister, Mrs. A. W. Arehart, the deceased is survived by two brothers Wilbur, of Indianapolis, and Cleveland, of McAllister Oklahoma, also a sister, Mrs. Evelyn Johnson, of Hartford City, Ind. Rev. Fultz, of Bowersville had charge of the funeral.

PICTURE AND MUSIC AT ROGERS PARK

Rogers Park, north of Bloomingburg, presents an attractive program Wednesday evening with a Realart picture starring Wanda Hawley in "Miss Hobbs."

Wanda Hawley is the Realart star, who has won her right to stardom through youth, beauty and charm. "Miss Hobbs" is just the bubbling, laughable sort of a comedy in which her buoyant personality is most entrancing.

It is a clever comedy of a "Man-hater" and the man who cures her when real love comes along.

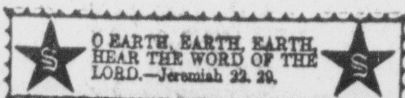

Harvey's Orchestra will furnish music from 8:00 to 8:30 and the picture will be shown from 8:30 to 10:00.

A Pittsburgher, Who Caused a Sensation, Tells of Results.
ANCIENT TONIC HIS SECRET

Hundreds of Thousands of Families Found Health and Happiness by Following His Instructions.

Six years ago H. H. Von Schlick could be seen any day visiting prominent Pittsburgh business men in their downtown offices. He carried a satchel, and his arrival was always greeted by a smile indicating welcome. These men were his customers. They drank at his "fountain of youth." They accorded him with a new lease of life and the healthy condition of their families.

Von Schlick has bright eyes and his cheeks indicate that pure red blood flows through his veins. He says he was younger at 50 than he was at 35. He has never had a sick spell or any of the symptoms of the ailments which afflicted him before he began using a tea, the ingredients of which were conveyed to him by an old Bulgarian 20 years ago. Von Schlick makes this statement:

"I was recovering from the grippe, was run down, had a dizzy feeling in the head, and felt like the victim of the hook-worm. This old Bulgarian knew of my sickness and while in the office suggested, 'I will give you something to make you feel better.' He returned next day with a package and told me to use one teaspoonful in a cup of hot water, and to repeat the dose once each night for a little while. He promised I would never be troubled from sickness again. I followed the prescription skeptical, of course, and one day later I was seeking that old man to secure from him the ingredients of that tonic.

100 YEARS YOUNG
"He explained to me that in Bulgaria the older families regarded this tonic as the great disease preventative and health restorer; that it was handed down from generation to generation. At the first symptom of any sickness the mother or women of the family made the tea for all members. It is a well-known fact that Bulgarians are the oldest and healthiest people in the world.

"In Bulgaria and the Balkan countries of Eastern Europe, in spite of poor sanitary conditions, among 1,000,000 inhabitants there are 1,600 over 100 years old. In France there is only one person in 1,000,000 over 100 years old, and in Germany only one person in 1,150,000. It is a rare news item in the United States when a man dies after reaching the century mark.

"My Bulgarian friend informed me that his progenitors reached this time of life and that they all had a healthy and happy old age. Asked

for a reason he pointed to his tonic. After using this tonic for 15 years I am ready to guarantee to the world that it is the best prescription for health existing.

"Every member of my family takes one dose each week, my relatives all use it, my friends and neighbors have been keeping health by reason of it, and hundreds of thousands of people in this city, all sensible and well known, consider I have done them an everlasting favor by convincing them of its merits.

"During all the terrible influenza epidemic Bulgarian Blood Tea was used by countless thousands of sufferers with marvelous success and millions of people took it steaming hot to prevent and ward off the disease.

A 15-YEAR TEST
"After 15 years of experience I am positive that it will prevent sickness. It will restore your health by eliminating the poisons. It will regulate disorders of the digestive organs. It will increase poor circulation. It will restore vitality, energy or strength. It will make your brain respond splendidly to the brain of modern business. It will give you a healthy, youthful complexion. It will prolong your life and, with proper diet, you should live to a ripe old age."

Bulgarian Blood Tea today is used by millions of people in every state in the Union fighting off disease and old age weaknesses. They include happy girls budding into womanhood or women crossing precarious thresholds of life. All praise and recommend it. Men regain strength and vitality, the blood becomes rich and pure and the fire and vim of robust health returns to those who were in despair.

Bulgarian Blood Tea is guaranteed to contain just pure herbs of marvelous medicinal and curative power gathered from fields, mountains and valleys of Europe, Asia and Africa. All drug stores now keep Bulgarian Blood Tea in stock, but, owing to the enormous demand immediate application to your druggist is urged on account of the limited source of supply. Distributors of Bulgarian Blood Tea are authorized to return the full purchase price if it does not materially improve your health in three weeks' time. This evidence of faith in the power of Bulgarian Blood Tea is the guarantee of the Marvel Products Company, Marvel Building, Pittsburgh, who authorize this public announcement.

The total valuation of the estate was \$372,117.44, and the net valuation \$306,189.49.

The J. R. Vannorsdall estate, valued at \$302,743.57 total and \$289,317.57 net had a total inheritance tax of \$1764.59, divided as follows: Paint township \$161.61; Jefferson township \$1311.15; Range (Madison county) \$133.33; Silver Creek (Greene) \$135.45; Ross (Greene county) \$22.45.

The reason for the great variance in the inheritance taxes of the two estates is due to the closer relationships involved in the Vannorsdall estate.

WHEAT CUTTING
WELL UNDER WAY

Hundreds of farmers who had not previously opened their wheat fields, did so Monday and the result was that thousands of acres of wheat had been placed in the shock by Tuesday afternoon and the work was continuing at a rapid rate with indications that by the end of this week there would be little wheat standing.

South of this city fifteen or twenty miles nearly all of the wheat is now in the shock.

One of the largest crops of oats ever harvested in Fayette will soon be ready for the binder.

COUNCIL HOLDS
SHORT SESSION
TUESDAY NIGHT

Broadway Residents Ask
Relief From Bad Sewer
Which is Causing Trouble.

Ornamental Traffic Posts
Authorized If Found Legal—Other Business.

Council held a short adjourned session Tuesday night at which a number of matters of business were considered.

The name of Chas. S. Phillips was presented to council to succeed the late O. D. Marchant as member of the City Civil Service Commission, and was approved by unanimous vote.

A petition was presented asking for lights on Gregg street at the intersection of Wilson and Gregg and Blackstone Avenue and Gregg. This was referred to the service committee.

The question of establishing ornamental traffic posts or safety zone markers was taken up and discussed at some length, the majority of council favoring construction of some kind of ornamental traffic posts at the three chief crossings on Court street.

Service Director Tracey presented a petition from the three women's organizations, the Cecilians, Browning Club and W. R. C. asking for the ornamental safety zone posts.

The question of making the posts permanent of temporary construction was referred to Solicitor Junk, and if the city was found to have legal authority for erecting permanent posts, to authorize the Service Director to proceed with the work of carry out the wishes of council. Solicitor Junk stated that he would regard such posts as not an obstruction and believed the city would not be liable if the posts were kept lighted after night.

Oscar Ortmann, of Broadway, heading a group of citizens from Broadway and Washington avenue, asked council for sewer relief, stating that considerable difficulty had been experienced by water backing into cellars during heavy rains, and urged speedy action to prevent further damage by the water.

The sewer, it was pointed out, is meant to afford drainage for many residences in that part of the city as well as carry the storm water, and really is nothing but drain tile which is believed to be filled with roots.

The complaint was referred to the Service Committee for investigation and early report.

Mayor Dahl's report was read, showing collection of \$10 in fines \$42 in costs and \$70 in license fees, a total of \$120.

Auditor Hitchcocks report for the previous month was submitted and showed balances July 1st as follows: General fund \$133.68, Safety \$2191.30, Health 68.44, Service \$2189.22.

Two important matters not mentioned during the session was the question of compromise on the gas and electric rates and the question of having the B. & O. railroad crossings repaired by passing the necessary resolution to bring about the work.

Do You Know

That a new Buttermilk Condenser just installed by the **Sunlight Creameries** produces a car load of pure, near-solid buttermilk daily.

That condensed buttermilk is an ideal cheap feed for hogs and poultry.

That farmers in this part of Ohio have an exceptional opportunity for obtaining this condensed buttermilk for their hogs and poultry, thus making hog and poultry raising more profitable.

And that buttermilk is used in the manufacture of so-called high grade "pearl" buttons.
